"NetGain Technologies has brought our IT problems to a minimum and has saved our organization money long term."

Long-Run Baptist association:

Long Run Baptist Association has been serving Baptist churches for over two centuries. Today our fellowship serves the four county area of Bullitt, Jefferson, Oldham, and Spencer. The Greater Louisville Metro area, the sixteenth largest city in the United States, comprises over 1,000,000 people.

In 1803, the same year that Lewis and Clark began their expedition, twenty-four churches gathered at the Long Run Baptist Church. United in purpose and vision, they joined their resources in an effort to carry out the Great Commission.

Two centuries have passed, yet our focus remains consistent. There are still people who need to know the marvelous grace that God has to offer. There are still those who need guidance to continue in the grace that they have learned. There are still some who need encouragement from and fellowship of other believers.
