

The day to day operations of Silverdale Baptist Church have been greatly enhanced through our relationship with NetGain Technologies and our decision to use their *Technology OneSource* as our choice for our IT support.

Whenever a problem arises, we simply pick up the phone, call the Help Desk at NetGain, and within minutes, the problem is taken care of. It's just that simple!

Doing business with NetGain has been a tremendous pleasure for us because we feel like more than just a customer, but, like a member of their family, in whom they have a genuine interest in seeing us succeed in what we are trying to accomplish in our community. We have been very comfortable in doing business with NetGain because we have experienced the way in which they run their business on sound moral and ethical principles.

Information Technology support is quite often one of those critical issues that may go unnoticed until a problem or crisis arises, and then, the question becomes: "Who will I turn to for help?"

I would strongly encourage you to pick up the phone and call our Account Executive, Brandon Miller, and make an appointment with him to discuss how *Technology OneSource* can benefit your business.
